## INDEX OF SUBJECTS AND AUTHORS OF PAPERS

## VOLUME XVIII

## TRANSACTIONS OF AMERICAN SOCIETY FOR STEEL TREATING

JULY, 1930—DECEMBER, 1930

## A

Abrasion by Sand; Resistance of Steels to— <i>Samuel J. Rosenberg</i> .....	1093
Action of Ferrosilicon on the Carburization Process; Modifying— <i>E. G. Mahin and F. J. Moots</i> .....	552
Alloy Steel Forgings; Nickel— <i>Charles McKnight</i> .....	1
Alloys; Corrosion Test for Research and Inspection of— <i>William R. Huey</i> ..	1126
Alloys; Critical Ranges in Pure Iron-Carbon— <i>R. H. Harrington and W. P. Wood</i> .....	632
Alloys; Metastable Equilibrium in Hypereutectoid Iron-Carbon— <i>A. Allan Bates, D. E. Lawson and H. A. Schwartz</i> .....	659
Alpha Iron; X-Rays Detect Twin Crystals in— <i>N. P. Goss</i> .....	1238
Ammonia; Nitriding in Packing Materials and— <i>A. B. Kinzel and John J. Egan</i> .....	459
Applications to the Rolling Process; Concentrated Pressure and Some of Its— <i>A. Nadai</i> .....	1057
Austenite; Electrolytic Decomposition of Cementite and— <i>H. A. Schwartz, G. M. Guiler and H. H. Johnson</i> .....	718
Austenite Decomposition and the Changes in Magnetic Properties— <i>Harley S. Van Vleet and Clair Upthegrove</i> .....	729
Automobile Bodies; Sheet Steel and Strip Steel for— <i>Joseph Winlock and George L. Kelley</i> .....	241

## B

Balance for Rotary Forging Furnaces; Practical and Theoretical Heat— <i>Theodore F. Schilling</i> .....	58
Bearing Metals and Bearings— <i>W. M. Corse</i> .....	943
Bearings; Bearing Metals and— <i>W. M. Corse</i> .....	943
Behavior Under Repeated Overstresses; An Investigation of the Phenomena of the Strengthening of Steel and Its— <i>A. Thum and W. J. Wiss</i> ....	1035
Bodies; Sheet Steel and Strip Steel for Automobile— <i>Joseph Winlock and George L. Kelley</i> .....	241
Body, and Structure of Hardened Tool Steel; Effects of Prequench Treatments on the Hardness— <i>R. H. Harrington</i> .....	404
Bolts; Physical Properties of Fine— <i>H. B. Pulsifer</i> .....	273
Brazing in Hydrogen Electric Furnaces; Copper— <i>H. M. Webber</i> .....	1144

## C

Campbell Lecture. Oxygen in Steel— <i>Marcus A. Grossmann</i> .....	601
Carbide; Cemented Tungsten— <i>G. J. Comstock</i> .....	993
Carbon Alloys; Critical Ranges in Pure Iron— <i>R. H. Harrington and W. P. Wood</i> .....	632
Carbon Alloys; Metastable Equilibrium in Hypereutectoid Iron— <i>A. Allan Bates, D. E. Lawson and H. A. Schwartz</i> .....	659
Carbon Constitutional Diagram; A Study of the Iron-Chromium— <i>V. N. Krivobok and Marcus A. Grossmann</i> .....	760
Carbon Constitutional Diagram; Influence of Nickel on the Chromium—	

# INDEX

1255

	<i>V. N. Krivobok and Marcus A. Grossmann</i> .....	808
	Carbon System; A Study of the Tungsten— <i>W. P. Sykes</i> .....	968
	Carbon Tool Steel; Estimation of Internal Stress in Quenched Hollow Cylinders of— <i>O. V. Greene</i> .....	369
	Carbon Steel; Study of High-Chromium, Low— <i>Arthur Phillips and Ralph W. Baker</i> .....	894
	Carbon Steel Castings; Deoxidation and Mold Conditions on the Tensile Properties of— <i>J. V. McCrae and R. L. Dowdell</i> .....	159
	Carburization; Recent Developments in Gas— <i>O. J. Wilbor and J. A. Comstock</i> .....	533
	Carburization Process; Modifying Action of Ferrosilicon on the— <i>E. G. Mahin and F. J. Mootz</i> .....	552
	Case Hardened Steel; Relation of Structure to Surface Hardness of a— <i>H. W. McQuaid and O. W. McMullan</i> .....	584
	Cast Iron; Corrosion and Heat Resistant Nickel-Copper-Chromium— <i>J. S. Vanick and P. D. Merica</i> .....	923
	Casting Guns by the Centrifugal Process— <i>T. C. Dickson</i> .....	212
	Castings; Deoxidation and Mold Conditions on the Tensile Properties of Carbon Steel— <i>J. V. McCrae and R. L. Dowdell</i> .....	159
	Cementite and Austenite; Electrolytic Decomposition of— <i>H. A. Schwartz, G. M. Guiler and H. H. Johnson</i> .....	718
	Cemented Tungsten Carbide— <i>G. J. Comstock</i> .....	993
	Centrifugal Process; Casting Guns by the— <i>T. C. Dickson</i> .....	212
	Changes in Magnetic Properties; Austenite Decomposition and the— <i>Harley S. Van Vleet and Clair Upthegrove</i> .....	729
	Chromium Additions; Data on Manganese Structural Steels with— <i>A. B. Kinzel and W. B. Miller</i> .....	908
	Chromium-Carbon Constitutional Diagram; A Study of the Iron— <i>V. N. Krivobok and Marcus A. Grossmann</i> .....	760
	Chromium Cast Iron; Corrosion and Heat Resistant Nickel-Copper— <i>J. S. Vanick and P. D. Merica</i> .....	923
	Chromium-Iron-Carbon Constitutional Diagram; Influence of Nickel on the— <i>V. N. Krivobok and Marcus A. Grossmann</i> .....	808
	Chromium, Low-Carbon Steel; Study of High— <i>Arthur Phillips and Ralph W. Baker</i> .....	894
	Chromium Rustless Steels; Nature of the Nickel— <i>R. H. Aborn and E. C. Bain</i> .....	837
	Cold Heading Die Life— <i>A. S. Jameson</i> .....	313
	Component of Wear; Wear Oxidation A New— <i>Dr. Max Fink</i> .....	1026
	Concentrated Pressure and Some of Its Applications to the Rolling Process— <i>A. Nadai</i> .....	1057
	Constitutional Diagram; A Study of the Iron-Chromium-Carbon— <i>V. N. Krivobok and Marcus A. Grossmann</i> .....	760
	Constitutional Diagram; Influence of Nickel on the Chromium-Iron- Carbon— <i>V. N. Krivobok and Marcus A. Grossmann</i> .....	808
	Copper Brazing in Hydrogen Electric Furnaces— <i>H. M. Webber</i> .....	1144
	Copper-Chromium Cast Iron; Corrosion and Heat Resistant Nickel— <i>J. S. Vanick and P. D. Merica</i> .....	923
	Corrosion and Heat Resistant Nickel-Copper-Chromium Cast Iron— <i>J. S. Vanick and P. D. Merica</i> .....	923
	Corrosion Test for Research and Inspection of Alloys— <i>William R. Huey</i> .....	1126
	Cracks in Hardened and Ground Steel; Stresses and— <i>Gerald R. Brophy</i> .....	423
	Critical Ranges in Pure Iron-Carbon Alloys— <i>R. H. Harrington and W. P. Wood</i> .....	632
	Crystals in Alpha Iron; X-Rays Detect Twin— <i>N. P. Goss</i> .....	1238
	Cylinders of Carbon Tool Steel; Estimation of Internal Stress in Quenched Hollow— <i>O. V. Greene</i> .....	369

## D

Data on Manganese Structural Steels with Chromium Additions— <i>A. B. Kinzel and W. B. Miller</i> .....	908
Decomposition and the Changes in Magnetic Properties; Austenite— <i>Harley S. Van Vleet and Clair Upthegrove</i> .....	729
Decomposition of Cementite and Austenite; Electrolytic— <i>H. A. Schwartz, G. M. Guiler and H. H. Johnson</i> .....	718
Deoxidation and Mold Conditions on the Tensile Properties of Carbon Steel Castings— <i>J. V. McCrac and R. L. Dowdell</i> .....	159
Detect Twin Crystals in Alpha Iron; X-Rays— <i>N. P. Goss</i> .....	1238
Developments in Gas Carburization; Recent— <i>O. J. Wilbor and J. A. Comstock</i> .....	533
Diagram; A Study of the Iron-Chromium-Carbon Constitutional— <i>V. N. Krivobok and Marcus A. Grossmann</i> .....	760
Diagram; Influence of Nickel on the Chromium-Iron-Carbon Constitutional— <i>V. N. Krivobok and Marcus A. Grossmann</i> .....	808
Die Life; Cold Heading— <i>A. S. Jameson</i> .....	313
Dies; Cold Heading Die Life— <i>A. S. Jameson</i> .....	313
Distillation; Purification of Manganese by— <i>James B. Friauf</i> .....	1246

## E

Effects of Prequench Treatments on the Hardness, Body, and Structure of Hardened Tool Steel— <i>R. H. Harrington</i> .....	404
Electric Furnaces; Copper Brazing in Hydrogen— <i>H. M. Webber</i> .....	1144
Electrolytic Decomposition of Cementite and Austenite— <i>H. A. Schwartz, G. M. Guiler and H. H. Johnson</i> .....	718
Equilibrium in Hypereutectoid Iron-Carbon Alloys; Metastable— <i>A. Allan Bates, D. E. Lawson and H. A. Schwartz</i> .....	659
Equipment; Nitriding Furnaces and— <i>W. J. Merten</i> .....	502
Estimation of Internal Stress in Quenched Hollow Cylinders of Carbon Tool Steel— <i>O. V. Greene</i> .....	369

## F

Factory; Forging Practice in U. S. Naval Gun— <i>W. L. Blankenship</i> ....	73
Fatigue Tests of Small Specimens with Particular Reference to Size Effect— <i>R. E. Peterson</i> .....	1041
Ferrosilicon on the Carburization Process; Modifying Action of— <i>E. G. Mahin and F. J. Moots</i> .....	552
Fine Bolts; Physical Properties of— <i>H. B. Pulsifer</i> .....	273
Fish-Scale in High Speed Steel; Occurrence of— <i>G. R. Brophy, R. H. Harrington and A. W. Merrick</i> .....	440
Forging Furnaces; Practical and Theoretical Heat Balance for Rotary— <i>Theodore F. Schilling</i> .....	58
Forging Practice in U. S. Naval Gun Factory— <i>W. L. Blankenship</i> .....	73
Forging Temperatures; Scaling of Steel at— <i>W. E. Jominy and D. W. Murphy</i> .....	19
Forgings; Nickel Alloy Steel— <i>Charles McKnight</i> .....	1
Forgings; Nitriding the Larger— <i>J. H. Higgins</i> .....	523
Furnaces; Copper Brazing in Hydrogen Electric— <i>H. M. Webber</i> .....	1144
Furnaces; Practical and Theoretical Heat Balance for Rotary Forging— <i>Theodore F. Schilling</i> .....	58
Furnaces and Equipment; Nitriding— <i>W. J. Merten</i> .....	502
Furnaces Used in the Manufacture of Telephone Equipment; Various Heat Treatment— <i>W. A. Timm</i> .....	351
Further Investigations in Nitriding— <i>R. Sergeson and H. J. Deal</i> .....	474

## G

- Gas Carburization; Recent Developments in—*O. J. Wilbor and J. A. Comstock* ..... 533
- Gamma Rays; Radiography by the Use of—*Robert F. Mehl, Gilbert E. Doan, and Charles S. Barrett* ..... 1192
- Grain Structure of Martensite; A Study of the—*K. Heindlhofer and E. C. Bain* ..... 673
- Ground Steel; Stresses and Cracks in Hardened and—*Gerald R. Brophy*. 423
- Guns by the Centrifugal Process; Casting—*T. C. Dickson* ..... 212
- Gun Factory; Forging Practice in U. S. Naval—*W. L. Blankenship*.... 73

## H

- Hardened and Ground Steel; Stresses and Cracks in—*Gerald R. Brophy*. 423
- Hardened Steel; Relation of Structure to Surface Hardness of a Case—*H. W. McQuaid and O. W. McMullan* ..... 584
- Hardened Tool Steel; Effects of Prequench Treatments on the Hardness, Body and Structure of—*R. H. Harrington* ..... 404
- Hardness, Body, and Structure of Hardened Tool Steel; Effects of Prequench Treatments on the—*R. H. Harrington* ..... 404
- Hardness of a Case Hardened Steel; Relation of Structure to Surface—*H. W. McQuaid and O. W. McMullan* ..... 584
- Hardness Tester; the Microcharacter—*Christopher H. Bierbaum* ..... 1009
- Heading Die Life; Cold—*A. S. Jameson* ..... 313
- Heat Balance for Rotary Forging Furnaces; Practical and Theoretical—*Theodore F. Schilling* ..... 58
- Heat Resistant Nickel-Copper-Chromium Cast Iron; Corrosion and—*J. S. Vanick and P. D. Merica* ..... 923
- Heat Treatment; Relationship Between Welded-On Overlays and—*Miles Catlin Smith* ..... 1160
- Heat Treatment Furnaces Used in the Manufacture of Telephone Equipment; Various—*W. A. Timm* ..... 351
- High-Chromium, Low-Carbon Steel; Study of—*Arthur Phillips and Ralph W. Baker* ..... 894
- High Speed Steel; Occurrence of Fish-Scale in—*G. R. Brophy, R. H. Harrington and A. W. Merrick* ..... 440
- High-Voltage X-Ray Spectrography and Radiography; An Instrument for—*Frederick Sillers, Jr.* ..... 1177
- Hollow Cylinders of Carbon Tool Steel; Estimation of Internal Stress in Quenched—*O. V. Greene* ..... 369
- Hydrogen Electric Furnaces; Copper Brazing in—*H. M. Webber* ..... 1144
- Hypereutectoid Iron-Carbon Alloys; Metastable Equilibrium in—*A. Allan Bates, D. E. Laveson and H. A. Schwartz* ..... 659

## I

- Influence of Nickel on the Chromium-Iron-Carbon Constitutional Diagram—*V. N. Krivobok and M. A. Grossmann* ..... 808
- Ingots; Steel—*Herbert H. Ashdown* ..... 129
- Inspection of Alloys; Corrosion Test for Research and—*William R. Huey* 1126
- Instrument for High-Voltage X-Ray Spectrography and Radiography—*Frederick Sillers, Jr.* ..... 1177
- Internal Stress in Quenched Hollow Cylinders of Carbon Tool Steel; Estimation of—*O. V. Greene* ..... 369
- Investigation of the Phenomena of the Strengthening of Steel and Its Behavior Under Repeated Overstresses—*A. Thum and W. J. Wiss*.. 1035
- Investigations in Nitriding; Further—*R. Sergeson and H. J. Deal* ..... 474

Iron; Corrosion and Heat Resistant Nickel-Copper-Chromium Cast— <i>J. S. Vanick and P. D. Merica</i> .....	923
Iron; X-Rays Detect Twin Crystals in Alpha— <i>N. P. Goss</i> .....	1238
Iron-Carbon Alloys; Critical Ranges in Pure— <i>R. H. Harrington and W. P. Wood</i> .....	632
Iron-Carbon Alloys; Metastable Equilibrium in Hypereutectoid— <i>A. Allan Bates, D. E. Lawson and H. A. Schwartz</i> .....	659
Iron-Carbon Constitutional Diagram; Influence of Nickel on the Chro- mium— <i>V. N. Krivobok and Marcus A. Grossmann</i> .....	808
Iron-Chromium-Carbon Constitutional Diagram; A Study of the— <i>V. N. Krivobok and Marcus A. Grossmann</i> .....	760

## L

Larger Forgings; Nitriding the— <i>J. H. Higgins</i> .....	523
Lecture, Campbell. Oxygen in Steel— <i>Marcus A. Grossmann</i> .....	601
Low-Carbon Steel; Study of High-Chromium— <i>Arthur Phillips and Ralph W. Baker</i> .....	894

## M

Magnetic Properties; Austenite Decomposition and the Changes in— <i>Harley S. Van Vleet and Clair Upthegrove</i> .....	729
Manganese by Distillation; Purification of— <i>James B. Friauf</i> .....	1246
Manganese Structural Steels with Chromium Additions; Data on— <i>A. B. Kinzel and W. B. Miller</i> .....	908
Martensite; A Study of the Grain Structure of— <i>K. Heindlhofer and E. C. Bain</i> .....	673
Manufacture of Telephone Equipment; Various Heat Treatment Furnaces Used in the— <i>W. A. Timm</i> .....	351
Materials and Ammonia; Nitriding in Packing— <i>A. B. Kinzel and John J. Egan</i> .....	459
Metals and Bearings; Bearing— <i>W. M. Corse</i> .....	943
Metastable Equilibrium in Hypereutectoid Iron-Carbon Alloys— <i>A. Allan Bates, D. E. Lawson and H. A. Schwartz</i> .....	659
Microcharacter Hardness Tester— <i>Christopher H. Bierbaum</i> .....	1009
Modifying Action of Ferrosilicon on the Carburization Process— <i>E. G. Mahin and F. J. Moots</i> .....	552
Mold Conditions on the Tensile Properties of Carbon Steel Castings; Deoxidation and— <i>J. V. McCrae and R. L. Dowedell</i> .....	159

## N

Nature of the Nickel-Chromium Rustless Steels— <i>R. H. Aborn and E. C. Bain</i> .....	837
Naval Gun Factory; Forging Practice in U. S.— <i>W. L. Blankenship</i> .....	73
Nickel Alloy Steel Forgings— <i>Charles McKnight</i> .....	1
Nickel-Chromium Rustless Steels; Nature of the— <i>R. H. Aborn and E. C. Bain</i> .....	837
Nickel-Copper-Chromium Cast Iron; Corrosion and Heat Resistant— <i>J. S. Vanick and P. D. Merica</i> .....	923
Nickel on the Chromium-Iron-Carbon Constitutional Diagram; Influence of— <i>V. N. Krivobok and Marcus A. Grossmann</i> .....	808
Nitriding; Further Investigations in— <i>R. Sergeson and H. J. Deal</i> .....	474
Nitriding Furnaces and Equipment— <i>W. J. Merten</i> .....	502
Nitriding the Larger Forgings— <i>J. H. Higgins</i> .....	523
Nitriding in Packing Materials and Ammonia— <i>A. B. Kinzel and John J. Egan</i> .....	459
New Component of Wear; Wear Oxidation A— <i>Dr. Max Fink</i> .....	1026

## O

- Occurrence of Fish-Scale in High Speed Steel—*G. R. Brophy, R. H. Harrington and A. W. Merrick* ..... 440
- Overlays and Heat Treatment; Relationship Between Welded-On—*Miles Catlin Smith* ..... 1160
- Overstresses; An Investigation of the Phenomena of the Strengthening of Steel and Its Behavior Under Repeated—*A. Thum and W. J. Wiss*... 1035
- Oxidation, A New Component of Wear; Wear—*Dr. Max Fink* ..... 1026
- Oxygen in Steel—*Marcus A. Grossmann* (Campbell Lecture) ..... 601

## P

- Packing Materials and Ammonia; Nitriding in—*A. B. Kinzel and John J. Egan* ..... 459
- Particular Reference to Size Effect; Fatigue Tests of Small Specimens with—*R. E. Peterson* ..... 1041
- Phenomena of the Strengthening of Steel and Its Behavior Under Repeated Overstresses; An Investigation of the—*A. Thum and W. J. Wiss*... 1035
- Physical Properties of Fine Bolts—*H. B. Pulsifer* ..... 273
- Practical and Theoretical Heat Balance for Rotary Forging Furnaces—*Theodore F. Schilling* ..... 58
- Practice in U. S. Naval Gun Factory; Forging—*W. L. Blankenship*... 73
- Prequench Treatments on the Hardness, Body, and Structure of Hardened Tool Steel; Effects of—*R. H. Harrington* ..... 404
- Pressure and Some of Its Applications to the Rolling Process; Concentrated—*A. Nadai* ..... 1057
- Process; Casting Guns by the Centrifugal—*T. C. Dickson* ..... 212
- Process; Concentrated Pressure and Some of Its Applications to the Rolling—*A. Nadai* ..... 1057
- Process; Modifying Action of Ferrosilicon on the Carburization—*E. G. Mahin and F. J. Moots* ..... 552
- Process Reliability in Steel Making—*George A. Dornin* ..... 100
- Properties; Austenite Decomposition and the Changes in Magnetic—*Harley S. Van Vleet and Clair Ubthe Grove* ..... 729
- Properties of Carbon Steel Castings; Deoxidation and Mold Conditions on the Tensile—*J. V. McCrae and R. L. Dowdell* ..... 159
- Properties of Fine Bolts; Physical—*H. B. Pulsifer* ..... 273
- Pure Iron-Carbon Alloys; Critical Ranges in—*R. H. Harrington and W. P. Wood* ..... 632
- Purification of Manganese by Distillation—*James B. Friauf* ..... 1246

## Q

- Quenched Hollow Cylinders of Carbon Tool Steel; Estimation of Internal Stress in—*O. V. Greene* ..... 369

## R

- Radiography; An Instrument for High-Voltage X-Ray Spectrography and—*Frederick Sillers, Jr.* ..... 1177
- Radiography by the Use of Gamma Rays—*Robert F. Mehl, Gilbert E. Doan and Charles S. Barrett* ..... 1192
- Ranges in Pure Iron-Carbon Alloys; Critical—*R. H. Harrington and W. P. Wood* ..... 632
- Rays; Radiography by the Use of Gamma—*Robert F. Mehl, Gilbert E. Doan and Charles S. Barrett* ..... 1192

Recent Developments in Gas Carburization— <i>O. J. Wilbor and J. A. Comstock</i> .....	533
Reference to Size Effect; Fatigue Tests of Small Specimens with Particular— <i>R. E. Peterson</i> .....	1041
Relation of Structure to Surface Hardness of a Case Hardened Steel— <i>H. W. McQuaid and O. W. McMullan</i> .....	584
Relationship Between Welded-On Overlays and Heat Treatment— <i>Miles Catlin Smith</i> .....	1160
Reliability in Steel Making; Process— <i>George A. Dornin</i> .....	100
Repeated Overstresses; An Investigation of the Phenomena of the Strengthening of Steel and Its Behavior Under— <i>A. Thum and W. J. Wiss</i> .....	1035
Research and Inspection of Alloys; Corrosion Test for— <i>William R. Huey</i> .....	1126
Resistance of Steels to Abrasion by Sand— <i>Samuel J. Rosenberg</i> .....	1093
Resistant Nickel-Copper-Chromium Cast Iron; Corrosion and Heat— <i>J. S. Vanick and P. D. Merica</i> .....	923
Rolling Process; Concentrated Pressure and Some of Its Applications to the— <i>A. Nadai</i> .....	1057
Rotary Forging Furnaces; Practical and Theoretical Heat Balance for— <i>Theodore F. Schilling</i> .....	58
Rustless Steels; Nature of the Nickel-Chromium— <i>R. H. Aborn and E. C. Bain</i> .....	837

## S

Sand; Resistance of Steels to Abrasion by— <i>Samuel J. Rosenberg</i> .....	1093
Scaling of Steel at Forging Temperatures— <i>W. E. Jominy and D. W. Murphy</i> .....	19
Sheet Steel and Strip Steel for Automobile Bodies— <i>Joseph Winlock and George L. Kelley</i> .....	241
Size Effect; Fatigue Tests of Small Specimens with Particular Reference to— <i>R. E. Peterson</i> .....	1041
Small Specimens with Particular Reference to Size Effect; Fatigue Tests of— <i>R. E. Peterson</i> .....	1041
Specimens with Particular Reference to Size Effect; Fatigue Tests of Small— <i>R. E. Peterson</i> .....	1041
Spectrography and Radiography; An Instrument for High-Voltage X-Ray— <i>Frederick Sillers, Jr.</i> .....	1177
Steel; Effects of Prequench Treatments on the Hardness, Body and Structure of Hardened Tool— <i>R. H. Harrington</i> .....	404
Steel; Estimation of Internal Stress in Quenched Hollow Cylinders of Carbon Tool— <i>O. V. Greene</i> .....	369
Steel; Occurrence of Fish-Scale in High Speed— <i>G. R. Brophy, R. H. Harrington and A. W. Merrick</i> .....	440
Steel; Oxygen in— <i>Marcus A. Grossmann</i> (Campbell Lecture) .....	601
Steel; Process Reliability in Making— <i>George A. Dornin</i> .....	100
Steel; Relation of Structure to Surface Hardness of A Case Hardened— <i>H. W. McQuaid and O. W. McMullan</i> .....	584
Steel; Stresses and Cracks in Hardened and Ground— <i>Gerald R. Brophy</i> .....	423
Steel; Study of High-Chromium, Low-Carbon— <i>Arthur Phillips and Ralph W. Baker</i> .....	894
Steel and Its Behavior Under Repeated Overstresses; An Investigation of the Phenomena of the Strengthening of— <i>A. Thum and W. J. Wiss</i> .....	1035
Steel and Strip Steel for Automobile Bodies; Sheet— <i>Joseph Winlock and George L. Kelley</i> .....	241
Steel at Forging Temperatures; Scaling of— <i>W. E. Jominy and D. W. Murphy</i> .....	19

Steel Castings; Deoxidation and Mold Conditions on the Tensile Properties of Carbon— <i>J. V. McCrae and R. L. Dowdell</i> .....	159
Steel Forgings; Nickel Alloy— <i>Charles McKnight</i> .....	1
Steel Ingots— <i>Herbert H. Ashdown</i> .....	129
Steel Making; Process Reliability in— <i>George A. Dornin</i> .....	100
Steels; Nature of the Nickel-Chromium Rustless— <i>R. H. Aborn and E. C. Bain</i> .....	837
Steels to Abrasion by Sand; Resistance of— <i>Samuel J. Rosenberg</i> .....	1093
Steels with Chromium Additions; Data on Manganese Structural— <i>A. B. Kinsel and W. B. Miller</i> .....	908
Strengthening of Steel and Its Behavior Under Repeated Overstresses; An Investigation of the Phenomena of the— <i>A. Thum and W. J. Wiss</i> .....	1035
Stress in Quenched Hollow Cylinders of Carbon Tool Steel; Estimation of Internal— <i>O. V. Greene</i> .....	369
Stresses and Cracks in Hardened and Ground Steel— <i>Gerald R. Brophy</i> ..	423
Strip Steel for Automobile Bodies; Sheet Steel and— <i>Joseph Winlock and George L. Kelley</i> .....	241
Structural Steels with Chromium Additions; Data on Manganese— <i>A. B. Kinsel and W. B. Miller</i> .....	908
Structure of Hardened Tool Steel; Effects of Prequench Treatments on the Hardness, Body and— <i>R. H. Harrington</i> .....	404
Structure of Martensite; A Study of the Grain— <i>K. Heindlhofer and E. C. Bain</i> .....	673
Structure to Surface Hardness of a Case Hardened Steel; Relation of— <i>H. W. McQuaid and O. W. McMullan</i> .....	584
Study of the Tungsten-Carbon System— <i>W. P. Sykes</i> .....	968
Study of the Grain Structure of Martensite— <i>K. Heindlhofer and E. C. Bain</i> .....	673
Study of High-Chromium, Low-Carbon Steel— <i>Arthur Phillips and Ralph W. Baker</i> .....	894
Study of the Iron-Chromium-Carbon Constitutional Diagram— <i>V. N. Krivobok and M. A. Grossmann</i> .....	760
Surface Hardness of A Case Hardened Steel; Relation of Structure to— <i>H. W. McQuaid and O. W. McMullan</i> .....	584
System; A Study of the Tungsten-Carbon— <i>W. P. Sykes</i> .....	968

## T

Telephone Equipment; Various Heat Treatment Furnaces Used in the Manufacture of— <i>W. A. Timm</i> .....	351
Temperatures; Scaling of Steel at Forging— <i>W. E. Jominy and D. W. Murphy</i> .....	19
Tensile Properties of Carbon Steel Castings; Deoxidation and Mold Conditions on the— <i>J. V. McCrae and R. L. Dowdell</i> .....	159
Test for Research and Inspection of Alloys; Corrosion— <i>William R. Huey</i> ..	1126
Tests of Small Specimens with Particular Reference to Size Effect; Fatigue— <i>R. E. Peterson</i> .....	1041
Theoretical Heat Balance for Rotary Forging Furnaces; Practical and— <i>Theodore F. Schilling</i> .....	58
Tool Steel; Effects of Prequench Treatments on the Hardness, Body and Structure of Hardened— <i>R. H. Harrington</i> .....	404
Tool Steel; Estimation of Internal Stress in Quenched Hollow Cylinders of Carbon— <i>O. V. Greene</i> .....	369
Treatment Furnaces Used in the Manufacture of Telephone Equipment; Various Heat— <i>W. A. Timm</i> .....	351
Treatments on the Hardness, Body, and Structure of Hardened Tool Steel; Effects of Prequench— <i>R. H. Harrington</i> .....	404

Tungsten Carbide; Cemented— <i>G. J. Comstock</i> .....	993
Tungsten-Carbon System; A Study of the— <i>W. P. Sykes</i> .....	968
Twin Crystals in Alpha Iron; X-Rays Detect— <i>N. P. Goss</i> .....	1238

## U

U. S. Naval Gun Factory; Forging Practice in— <i>W. L. Blankenship</i> .....	73
Use of Gamma Rays; Radiography by the— <i>Robert F. Mehl, Gilbert E. Doan and Charles S. Barrett</i> .....	1192

## V

Various Heat Treatment Furnaces Used in the Manufacture of Telephone Equipment— <i>W. A. Timm</i> .....	351
---	-----

## W

Wear; Wear Oxidation A New Component of— <i>Dr. Max Fink</i> .....	1026
Wear Oxidation, A New Component of Wear— <i>Dr. Max Fink</i> .....	1026
Welded-On Overlays and Heat Treatment; Relationship Between— <i>Miles Catlin Smith</i> .....	1160

## X

X-Rays Detect Twin Crystals in Alpha Iron— <i>N. P. Goss</i> .....	1238
X-Ray Spectrography and Radiography; An Instrument for High-Voltage— <i>Frederick Sillers, Jr.</i> .....	1177
